Making Things Right

The purpose of the final “Walk Through” is to make sure that everything in your new Montage home is the way it’s supposed to be. This is really important because it’s the last step in the construction process. Once you say “OK!” we can’t go back to fix something you may have overlooked.

Use this form to note the things you believe are incorrect or need fixing. Then fax or mail the form to: Rebecca Sanchez, Customer Service Manager.
